## UYGULAMANIN KISA TANITIMI

Projemde bir otomotiv bayisinin verilerini tutmakta zorlandığını bir database ve uygulamaya ihtiyaç duyacağını tespit ettim. Projemde otomotiv bayisi' nin gerekli bilgilerinin tutulduğu database ve uygulama geliştirdim. Uygulamada bilgilerin eklendiği, güncellendiği, arama yapıldığı, silinmek istendiğinde silindiği ve verilerin listelendiği bir uygulama geliştirdim.
